BILL READComing Back to
the Governor's
Figures.DEPARTMENT HEADS
GET \$9,000 EACHA Complete Tabulation of the
Territorial Salary List as
it Stands.

The Senate began the third reading of the salary bill yesterday morning. The number of salaries changed back to the figures originally suggested by the Governor was surprising. The heads of all departments were given \$9,000, according to the suggestion of Senator Kalaupoko. The second-grade of officers, such as the high sheriff, will be paid the uniform salary of \$6,000.

The day's work was absolutely devoid of anything of interest. Many long and often warm discussions were indulged in, and at times the debates would take on a personal nature. No blood was shed, however, and when the Senate adjourned for the day no one found it necessary to engage the services of an ambulance.

When the Senate met this morning Crabbe introduced the following resolution, in behalf of Frederick Harrison:

The petition of the undersigned, Frederick Harrison of Honolulu, in the Territory of Hawaii, humbly sheweth:

That your petitioner has for the last twenty-one (21) years carried on the business of contractor and builder in the Hawaiian Islands.

That on and between the 13th and 15th days of January, 1900, he was instructed by the president of the Board of Health to prepare several rooms in the block in Honolulu bounded by King, Alakea, Richards and Merchant streets for the fumigation of the goods and furniture in the several houses and stores in the said block, preparatory to removal.

That on such instructions he moved all the goods and furniture in such block into such fumigation rooms and after fumigation and inspection by the proper officer of the Board of Health, he moved the same goods and furniture to the place provided for same by the said board in Printers' Lane, Honolulu.

That your petitioner furnished his bill of charges for the performance of the said work to the Board of Health, a copy of which bill is hereto annexed.

That the said bill was referred for consideration to the committee of public health of this honorable house; that through some neglect or oversight your petitioner was not given an opportunity of explaining the said bill to the said committee, and that the committee therefore, not understanding the nature of the claim, advised that it be not included in the appropriation bill, and it was therefore omitted from such bill.

Wherefore your petitioner prays that he be allowed by this honorable house to be heard regarding his said claim and to give reasons why a sum should be appropriated for its payment.

And your petitioner will ever pray, etc.

FREDERICK HARRISON.

Referred to committee on public expenditures.

Immediately following this the salary bill was taken up, and was read for the third time. The instrument was not finished when 4 o'clock came. It will probably be finished today.

The figures agreed upon are as follows. These are the ones that will, in all likelihood, be incorporated in the bill when it is accepted after its third reading. Some minor changes may be made, but, if any, they will be insignificant.

An Act Making Appropriations for the Departmental Use of the Government of the Territory of Hawaii, and Providing for the Payment of the Necessary Current Expenses of Carrying on the Government for the Successing Biennial Period.

Be it Enacted by the Legislature of the Territory of Hawaii:

Section 1. The following sums amounting to \$—, are hereby appropriated out of all monies in the Treasury received from current receipts of the general revenues of the Territory for departmental use and providing for the payment of the necessary current expenses of carrying on the Territorial Government for the succeeding biennial period:

Office of the Secretary of the Territory of Hawaii—

Salary of chief clerk . . . \$3,600 00

POI AND A
STEAMERPaiai Contractors
Air Their
Pilikia.CAUSED BY POOR
TRANSPORTATIONHealth Board Confronted by a
Peculiar Situation—Need a
Vessel Badly.

A steamer set apart especially for the needs of the Board of Health in connection with maintenance of the Leper Settlement on Molokai, the sending of food supplies to these people, and the collection of lepers from the other islands of the group to be brought first to Honolulu and thence sent to Kalaupapa is absolutely necessary if the lepers are to be cared for properly.

The Board of Health men complain that the service of the Island steamers is poor, especially for the Leper Settlement, and the steamship company state that they are always misrepresented. It is evident that, no matter what the cause may be, the Settlement does not receive proper attention.

The Board of Health is just now in a quandary as to what it will do to supply the lepers with poi, a contract for which was signed last week by Lee Chu and his associates to supply 400 palai of twenty-one pounds each, every week. After the contractor had signed the agreement by which he was to supply fresh poi in good condition landed at Kalaupapa, an objection was made to the terms which the Board imposed upon him. He appeared before the Board with his attorney, J. A. Magoon, who stated the various objections which Lee Chu now had against fulfilling his part of the contract. To a man up a tree it seemed that Lee Chu was endeavoring to get all the good things of a contract on his side, removing all chance of the contract being annulled for his failure to do certain things, and to throw the onus of the palai spoiling before it reached Kalaupapa upon the Board of Health, thus relieving the contractor of any loss. In other words, he proposed that the Board should accept his palai on the dock here and pay him for it. If the palai spoiled the Board would be the loser of the palai and the money, although the agreement which he had already signed was vice versa.

An attorney stated the chief objection was in the delays which the Board experienced in having its Settlement freight landed at Kalaupapa in anything like a specified period. He said his clients only desired their legal rights, although he confessed that their having signed the contract proposed by the Board showed they had accepted the conditions up to the time they had conferred with him. The contract read that each bundle of poi should be packed and weighed twenty-one pounds, and that the contractors should be ready to supply 400 palai every week. He said this was unsatisfactory to the contractors. The terms were such that if they failed to perform this duty of supplying so much per week upon an order which came from the Board on a Sunday to be delivered either on a Monday or a Tuesday afternoon, whenever the steamer sailed for the Settlement, it was equivalent to their losing the contract. There was further nothing in the contract which stated when the money was to be paid to Lee Chu. He said his clients wanted to be paid monthly. They would be compelled to go to considerable expense in buying up taro lands, turning rice fields into taro grounds, erecting buildings, etc., and they would therefore want it specified just when they could expect their money. Lee Chu had an experience with a former board in not receiving his money on time and had suffered financial losses. His clients did not propose to advance money to the Health Department, which they would virtually be doing if no provision for the time of payment was made.

President Cooper inquired where the Board of Health was to "get off" if the contract was twisted and turned to suit the contractor and not themselves. He said that Lee Chu had accepted the tender advertised by the Board and had signed the contract as it was. The tender called for the delivery of the palai at Kalaupapa landing.

The attorney said that was true, but when it was taken into consideration that the vessel often steamed around to Lahaina, and around Molokai, making its last port at Kalaupapa, two or three days were consumed by this maneuvering and the palai would naturally be spoiled. He said that palai when placed in the hold would sweat, and that spoiled it. And for this the contractors were held responsible and their contract could be annulled. He thought this was not right, and asked to have that part of the contract modified. He preferred to have the palai accepted at Honolulu. Dr. Pratt said the Board could not guarantee the transportation.

"Then we cannot guarantee good palai," returned Magoon.

"Neither can the Board guarantee monthly payment," replied the executive officer. All bills are now paid in warrants.

"You can't expect these parties to go to all this expense and not get their pay within a reasonable time, do you?" If that is the case, they ought to have their bills draw interest."

Dr. Pratt reminded the attorney that the expense the contractors were put to did not cut any figure with the Board. The Board had advertised for tenders and Lee Chu had accepted. Furthermore, the warrants were drawing interest at 5 per cent. Dr. Cooper said the palai could not be accepted here. Several members of the Legislature, he said,

were endeavoring to supply the Board with a steamer, in which case they could make better service between here and the Settlement. Mr. Dole suggested that F. C. Smith be appointed as a committee of one to accompany Mr. Magoon to the Health office yesterday afternoon to obtain data as to the running expenses of the proposed vessel. Dr. Sloggett was appointed a committee of one to look after the data concerning salaries of the captain, chief engineer, assistant engineer, mates, deck hands, firemen, cost of food, coal, etc., which he will hand to Beckley this morning, when a report will be made to the House on the matter.

Harpooned a Whale.

A report comes from Neah Bay that a canoe containing twelve half-starved Indians arrived there on June 18 from down the coast. Several days ago the Indians sighted a monster whale off the entrance to the Straits of Fuca, and made an attempt to capture it. They succeeded in fastening a harpoon, and the whale started in a southerly direction at great speed, but the Indians held on and by the time a party eighty miles south of Cape Flattery was reached the Indians succeeded in killing it, but it immediately went to the bottom.

The Indians remained with the harpoon line fast to the animal, expecting it to come to the surface, but at the end of three days they were forced by hunger and thirst to return and abandon their prize.

WILL BE A BUSY
INTERSECTIONNew Blocks at King and
South Streets and
Elsewhere.

The intersection of King and South streets is assuming quite a business aspect. The Honolulu Stockyards Co., Ltd., has under construction a large 2-story business block with six large stores to cost \$20,000. W. W. Wright & Son have just completed a 2-story building costing \$20,000, with five stores, fronting on King and South streets. The second story will be devoted to lodging house purposes. A large carriage shop will take up the entire rear portion of the building.
